Jhadten Jewall

Over the last 20 years, I have combined my training in crystal healing, shamanism, vibrational healing, and sound healing with my ability to channel and work vibrationally with groups, to activate the structures of the future within.

During my workshops I guide you to access the still part of your consciousness that is one with your soul energy. The meditations are designed to improve your health, uplift your heart and delight your mind; to mirror to you the pure Essence of your Being.

I have travelled the world delivering these workshops, and it is my joy to guide people to a profound experience of the incredible gift that they are, as an embodied soul here on Earth.

I perceive energy intuitively and have learned to draw close approximations of what I see. The image on the title page represents the energies of this workshop, and the image below reveals the Energies of 2023

The Crystalline Essence of the New Paradigm

Galactic Portals of Light Opening

As we crossed the threshold of the Winter Solstice 2022, we were entering the energies of 2023. Immediately I felt the energy of this year as being delicate, refined, sublime and elegant. Arising from the Earth as well as from the Heavens a whole new frequency was born. The subtle crystalline energies of the Earth seemed to open us to new galactic portals of light opening. Instead of journeying to the Heart of Mother Earth to explore these frequencies, we were guided to find them, discover them within. In doing so, the new galactic portals of light also appeared to be within ourselves. To me it seemed as if we have reached a place in our spiritual development where truly all is held and contained within ourselves.

The emergence of our soul energy within ourselves now is more tangible than ever and provides us with greater clarity in our guidance, more trust in the power of our souls to manifest a new reality, and greater joy in the celebration of life. The gemstones that come to us now are unique and so powerful in their own individual ways as never before. They guide us to how to be in an active state of consciousness, acting upon reality instead of reacting to it from old thought patterns and belief systems.

The urgency to let go of the past and all of the conditioning we have experienced is becoming more and more pressing. This

new crystalline essence is tremendously powerful in supporting us in this endeavour to shift our awareness, our consciousness. To live consciously as a master of our destinies is the highest priority for spiritual beings at this time.

The attunement with these new crystalline frequencies produces some very new sounds and tones, which manifest then as a whole new aspect of reality....not only around us but in us as well. In many ways we are embarking on a journey of discovery as to what is actually the nature of our bodies, hearts and minds in the experience of incarnation.

We will work with crystals that assist us in having the courage to enter a whole new paradigm of reality and to enlighten us as to the nature of that reality and how to function within it. Many of the crystals in this workshop have very individual and unique messages for each participant, to guide them on their paths to greater awareness. Healing is the result and the activation of your soul's gifts, talents and abilities.

Each of the new crystals directs us to

a new movement and a new configuration in our bodies geometry that will assist us in accessing the galactic portals of light, that provide us with a new deep connection to the higher frequencies of our souls. An exciting Adventure.

In this workshop we will be activating the City of Light Emmen, for it is here that the energy of the new Crystalline Essence is being held for all the Netherlands. We will use meditation, initiation and sounding to experience the new energies and embody them completely in fun and playful ways.

Namaste!
